Match

Design by Jordi Vilardell & Meritxell Vidal.

VIBIA
LIGHT IS CREATION

Application:
Pendants.

Installation type:
Recessed.

Description:
Unique and unrepeatable, Match is much more than a light fixture. This innovative product stands as a new lighting concept based on co-creation. Using the product configuration software CREA, Match allows you to create structures arranged chaotically, automatically planned on-line and adapted to fit into the room and the space available. The result are infinite artistic configurations based on thin rods of aluminum and LED light terminals, forming a light sculpture that illuminates central themes of space and interior decoration.

Custom-made product for each space:
At **www.vibia.com** ▶ **Área Profesional**
you can create and choose the Match solution you need.
Endless designs, layouts and combinations are possible. Choose and create.
