

# Equilibre

DESIGN BY  
LUC RAMAEL  
2004

<sup>IT</sup> Regalare una storia unica, talmente irripetibile da dover essere raccontata con urgenza. Questo è l'obiettivo dichiarato di Equilibre, un design capace di essere attore protagonista nei progetti più diversi e particolari, in grado di cambiare, adattarsi, dettare i ritmi degli spazi e della luce, a voce alta e senza timori. Questa collezione deve il suo nome al sottile equilibrio formale tra il fusto affusolato e il grande diffusore circolare. Nella versione da terra, l'altezza considerevole di 2 metri ne esalta l'intrigante presenza scultorea.

Da anni riconoscibile, da ora in versione LED, da sempre personalizzabile come ogni progetto richiede.

<sup>EN</sup> Presenting a unique story, so unrepeatable that it must be told with urgency, this is the goal of Equilibre. A design that can assume the leading role in the most diverse and unusual projects; able to change, adapt, and dictate the rhythm of spaces and light, in a loud clear voice and with no fear. This collection owes its name to the subtle formal balance between its tapered stem and large circular diffuser. In the floor version, its 2 metres height, enhances its intriguing sculptural appearance. After standing out for years, it is now in LED version and customisable to meet every project requirements.
