

Biluna

DESIGN BY
LUC RAMAEL
2007

^{IT} Ci sono forme che non appartengono a storie comuni. Biluna trasmette lo spirito progettuale di Prandina attraverso l'intrigante rapporto di continuità tra esterno ed interno, senza la vista diretta della sorgente luminosa, quasi a voler fondere in modo indistinto il chiarore con la sua forma sferica.

La storia di Biluna è insolita per dimensioni, per forme e per impiego.

La storia di Biluna è unica per la sua luce morbida ed

uniforme, priva di riflessi e capace di ravvivare un'ampia superficie.

^{EN} There are shapes that do not belong to ordinary stories. Biluna conveys Prandina's design spirit through intriguing connections between exterior and interior, and by not placing the light source in direct view it seems to merge its glow with its spherical shape. The story of Biluna is unusual in terms of its size, shape and use. The story of Biluna is unique for its soft and uniform light, with no reflections, that animates large surfaces.
